WalkerDisplay
INCORPORATED

Life's all about change and so are we when it comes to art presentation. The Walker system frees you to explore all your options. No-More-Holes frees you to rearrange your artwork with ease and speed. **Embrace change!**

- 1** molding
- 2** sleeve
- 3** rod/cable
- 4** hook/holder

As Easy as 1234 WORKSHEET

1 molding

- Measure the linear footage of the display wall, divide by 8 and round to the next whole number. All **Molding** sold in eight-foot lengths.
- For **Aluminum Molding** installation, use #8 or #10 flathead screw. Heavy duty brass snaps required if installing molding on brick, concrete or other type of masonry.
- **Molding** can be cut with a hack saw.
- Use **End Caps** on outside ends only. Do not use an **End Cap** between two pieces of molding.
- **Molding** tested at 150 pounds per eight-foot section.

2 sleeve

- Rod Sleeves are the joining component between **Molding** and **Rod**.
- A ratio of one **Rod Sleeve** for each **Rod** is needed.
- One vertical **Rod** for every three feet of display footage is suggested

3 rod/cable

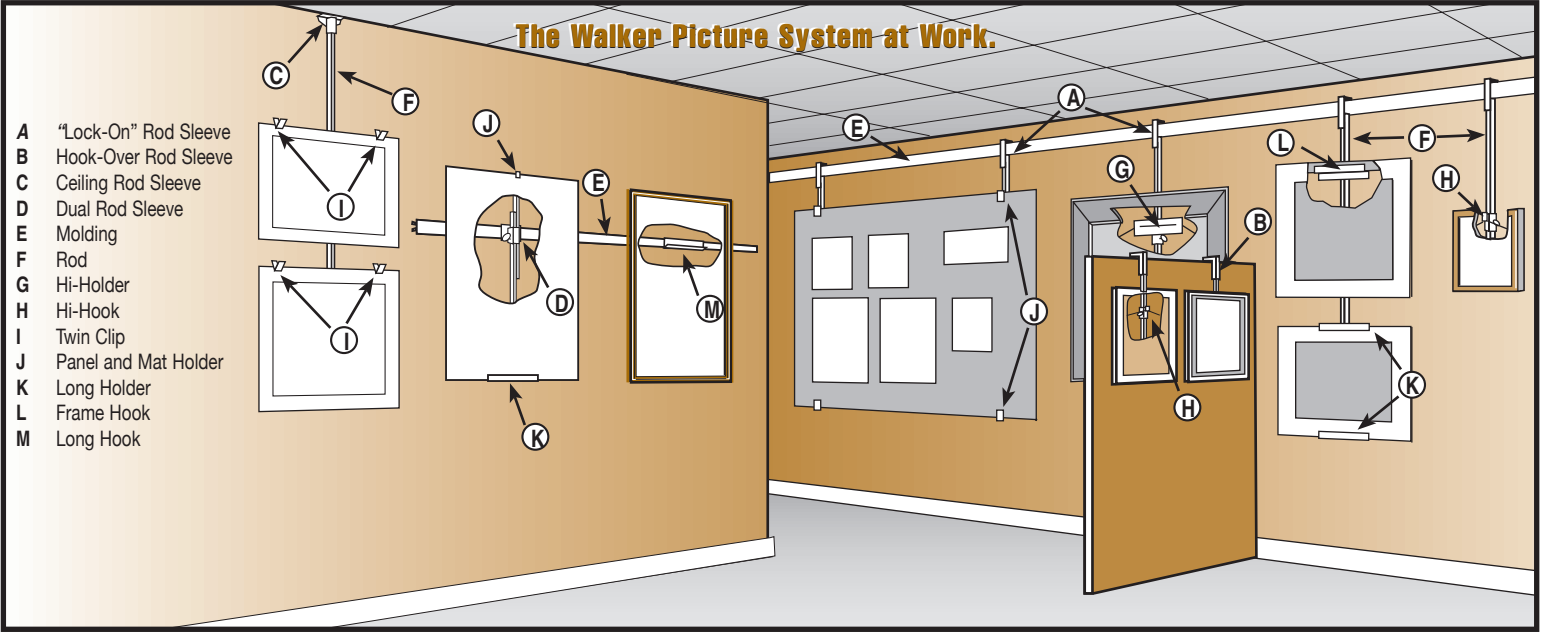

- *Choose **Rod** material based on your hanging needs: **Fiberglass** for ninety percent of weight requirements or if painting to match a wall color; **Steel** if hanging 3-dimensional pieces; **Kleer-Vu** for lightweight, flat works only.
- Tested weight capacity for **Fiberglass** is 50 pounds per **Rod**.
- While **Cable** has strength of over a hundred-pounds, the **Cable Hook** has a tested strength of twenty pounds per picture.
- Popular length of **Rod** or **Cable** is to end four feet off the floor.

4 hook/holder

- Choose a **Hi-Holder** or **Hi-Hook** for holding the picture by the picture frame wire.
- Choose **Panel Holder** and **Long Holder** for holding unframed or matted works.
- Choose **Frame Hooks** for holding the picture by the frame or canvas stretcher.
- You can hang multiple pieces of art on a single **Rod**.

The Walker Picture System at Work.

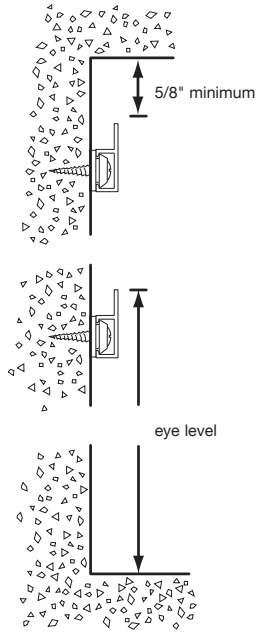

- A "Lock-On" Rod Sleeve
- B Hook-On Rod Sleeve
- C Ceiling Rod Sleeve
- D Dual Rod Sleeve
- E Molding
- F Rod
- G Hi-Holder
- H Hi-Hook
- I Twin Clip
- J Panel and Mat Holder
- K Long Holder
- L Frame Hook
- M Long Hook

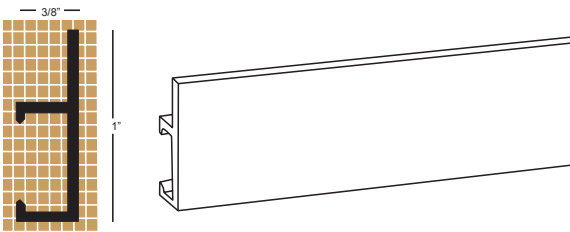

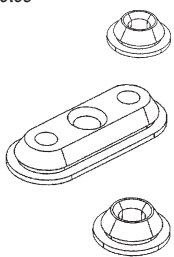

Molding can be mounted at any height. **Ceiling Height**—at least 7'6" from the floor—is great for hanging any size of artwork.

MOLDING:

Aluminum molding and wood molding are for installation on the wall, either at ceiling height or at eye level. Moldings accept "Lock-On" Rod Sleeves, Ogee Rod Sleeves, Dual Rod Sleeves, Long Hooks and Plain Hooks, as well as Molding Hooks. Please be sure to use proper mounting hardware for your wall type. When in doubt, consult your local hardware store.

Molding at **Eye Level** is excellent for smaller works such as photos or certificates.

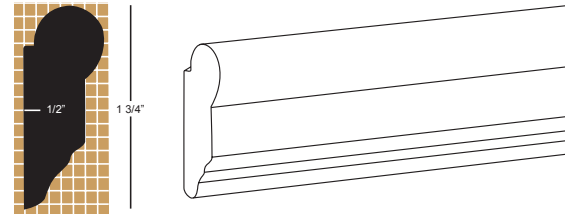

Aluminum Molding offers a contemporary look with hidden fasteners. Measuring only 1" on the face and 3/8" from the wall, the Molding is almost invisible. A hidden new mounting system makes mounting or repositioning a snap. 8' lengths only. Standard Mounting Snaps, without screws, included.

551	Unfinished	\$21.95
554	Gray Powder Coat Paint	\$29.95
555	Bronze Powder Coat Paint	\$29.95
556	White Powder Coat Paint	\$29.95

Mounting Snaps consist of 6 snaps and a joiner. **HD Snaps** are used for repeated mounting, brick walls, curved walls, acrylic showcases, or when presenting art directly from the Molding without a hanging Rod. **Standard Snaps** are used on flat wall surfaces and are included, at no additional cost, with every length of Molding.

550	Standard Snaps (Nylon)	\$1.50 set
550B	HD Snaps (Brass)	\$3.50 set

Wood Molding adds the beauty and versatility of wood to your room. Crafted of solid kiln dried poplar, these sections accept stain or paint to perfectly accent your decor. The Ogee Rod Sleeve hugs the contour of the molding so your art lies flat against the wall. 8' lengths only.

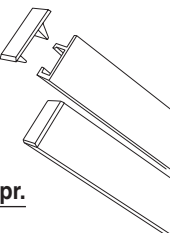

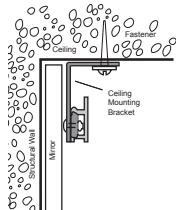

509	Natural	\$21.95
-----	---------	----------------

Ceiling Mounting Kit facilitates the mounting of Aluminum Molding to the ceiling rather than a wall. This method is desirable when presenting art in front of mirror, glass, or a special wall surface. The Kit consists of 6 Ceiling Mounting Brackets with bolts and nuts and 6 HD Mounting Snaps.

552	Ceiling Mounting Kit	\$18.95
-----	----------------------	----------------

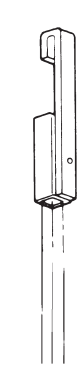

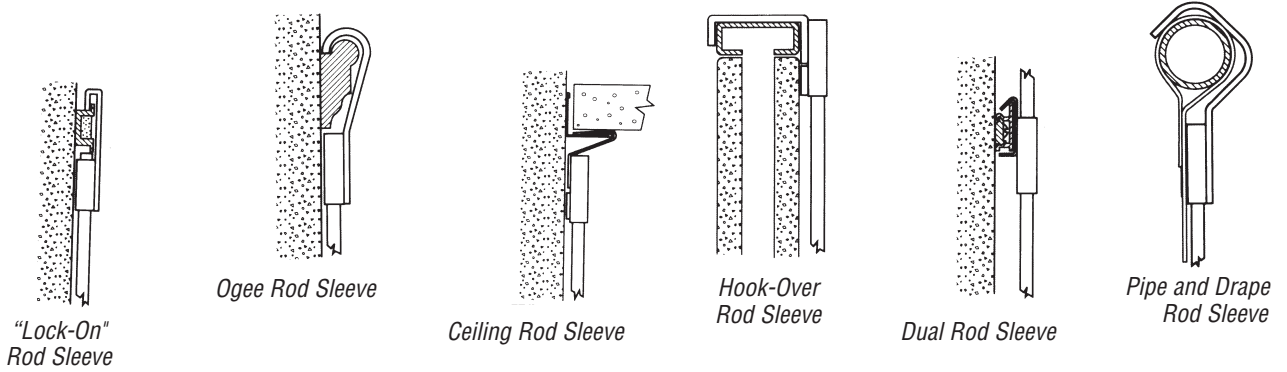

End Caps snap onto the uncovered ends of Molding. Constructed of high density polyethylene, these rugged, natural colored caps can be painted to match your Molding.

500	End Caps	\$1.00 pr.
-----	----------	-------------------

WALKER PICTURE SYSTEM

ROD SLEEVE STYLES

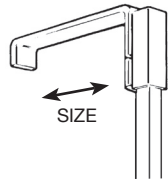

"Lock-On" Rod Sleeves attach without tools to the molding and can be positioned anywhere. For recessed Molding, call for correct item number.

Silver 571	Gray 572	Bronze 575	White 576
\$5.50		10 pack \$50.00	
add "P" to number for packs			

Ogee Rod Sleeves hook directly over wood picture molding. Since there is no standard wood molding design, check to avoid disappointment when not using Walker Display's Wood Molding. Special hooks can be fabricated to fit different style molding.

Silver 591	Gray 592	Bronze 595	White 596
\$5.50		10 pack \$50.00	
add "P" to number for packs			

Hook-Over Rod Sleeves attach at the top edge of exhibit and display panels, the top of open-plan office partitions and dividers, and some custom picture molding.

Size			
1/8"	382-01	1 1/4"	382-10
1/4"	382-02	1 1/2"	382-12
1/2"	382-04	1 3/4"	382-14
3/4"	382-06	1 7/8"	382-15
1"	382-08	2"	382-16

\$5.50 10 pack **\$50.00**
add "P" to number for packs

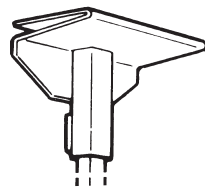

Pipe and Drape Rod Sleeves hook on "pipe and drape" convention and exhibit booths.

303-11	\$6.95	303-11P
		10 pack \$65.00

Universal Rod Sleeves are specially designed to work in almost every situation.

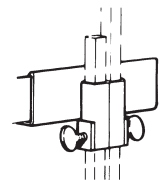

303-09	\$6.95	303-09P	\$65.00
--------	---------------	---------	----------------

Ceiling Rod Sleeves hook on the wall-angle of suspended acoustical ceilings.

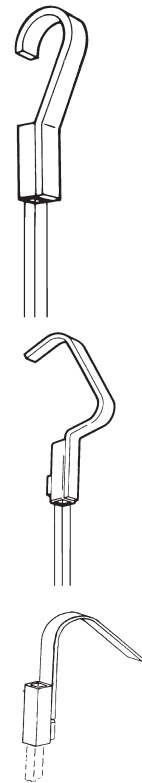

White 309-26	\$6.95	309-26P
		10 pack \$65.00

Dual Rod Sleeves are used with the Walker System molding (placed at eye level) to hold one or two rods. The rods may extend both above and below the molding. Steel Rod recommended.

344	\$6.95	344P
		10 pack \$65.00

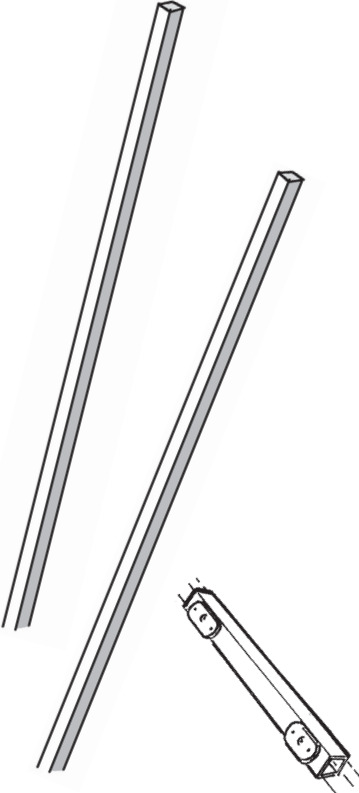

"P" after any stock number denotes 10 pack.
Unless color specified, all items are silver.

WALKER PICTURE SYSTEM

CHOOSING ROD OR CABLE

Choose your Rod or Cable based on your needs. All Rods are 1/4 square. Rods may be painted to match the wall color. Fiberglass Rods are available in three solid matte finishes. Use Steel Rods when bowing is a concern. Kleer-Vu Rods for flat, light weight art only. Cable is the slimmest, only 1/16" in diameter. Please call for assistance with Rod selection.

Fiberglass Rod

Length	Bronze	White	Gray	
2'	565-2	566-2	567-2	\$3.50
3'	565-3	566-3	567-3	\$5.00
4'	565-4	566-4	567-4	\$6.50
5'	565-5	566-5	567-5	\$8.00
6'	565-6	566-6	567-6	\$9.50
8'	565-8	566-8	567-8	\$12.50

Kleer-Vu Rod*

Clear		Length	Silver	
569-2	\$3.50	2'	562-2	\$ 7.00
569-3	\$5.00	3'	562-3	\$ 9.00
569-4	\$6.50	4'	562-4	\$11.00
569-5	\$8.00	5'	562-5	\$13.00
569-6	\$9.50	6'	562-6	\$15.00

*Because of the flexibility of Kleer-Vu Rods use with relatively flat, lightweight art work

Rod Connectors join two rods together for added length.

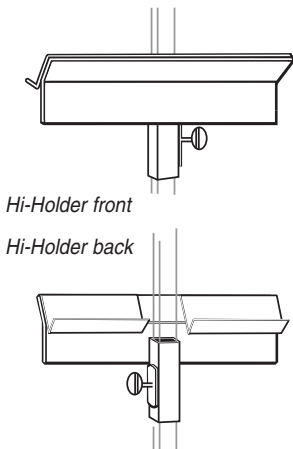

351	\$5.50
-----	---------------

Stainless Steel Cable

		Length	
561-4	\$6.50	4'	
561-6	\$9.50	6'	

HOOKS, HOLDERS AND MORE

The following picture Hooks and Holders are used with the Walker Picture System. These components, excluding Ceiling Hooks, are used in conjunction with Moldings, Rod Sleeves and Rods/Cable.

Hi-Holder front

Hi-Holder back

Hi-Holders are designed for the hanging wire on most artworks. They hold the wire tight against the Rod, the picture against the wall, yet remain concealed behind the picture. The 5" width ensures that the picture will stay level.

363	\$6.50	363P	\$60.00
-----	---------------	------	----------------

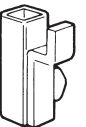

Double Hi-Holder works like a Hi-Holder allowing for back-to-back hanging in open areas and display windows.

364	\$7.50	364P	\$70.00
-----	---------------	------	----------------

Cable Adapter allows use of the Walker Picture System hooks and holders when hanging with cable.

461	\$8.50	pkg. of 10
-----	---------------	------------

Hi-Hooks fulfill two different functions. First, they hang smaller frames or plaques that have a "sawtooth" bracket or similar fixture. However, they do not provide the same stability as the Hi-Holder or Frame Hook. Secondly, Hi-Hooks can be used in pairs with a Spacer Rod to hang large paintings over 36" in width (see description under Spacer Rods).

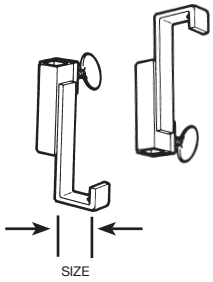

362	\$5.50	362P	\$50.00
-----	---------------	------	----------------

Cable Hooks are a specially designed hook for use with Stainless Steel Cable only. Use the Cable Hook for small pictures with wire or when desiring to hang pictures with two cables. A hole at the bottom of the hook allows the cable to pass through for multiple hanging from the same cable.

365	\$5.50	365P	\$50.00
-----	---------------	------	----------------

"P" after any stock number denotes 10 pack. Unless color specified, all items are silver.

Panel and Mat Holders

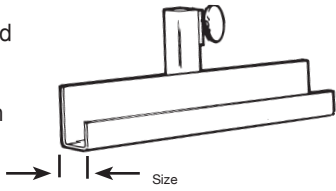

support the bottom and top edges of panels, mats and framed boards. They are best used in pairs or in combination with Long Holders.

Size		Size	
1/4"	332-12	1/2"	332-14
3/8"	332-13	5/8"	332-15

\$5.50 10 pack **\$50.00**
Add "P" to number for packs

Long Holders

are sized to accept frames, mats or panels with thicknesses from 1/4" to 1 1/2". Use in pairs on a single rod for smaller work. For larger frames or panels, use two or more rods.

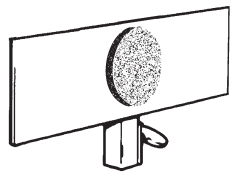

Size		Size	
1/4"	333-52	1"	333-58
3/8"	333-53	1 1/4"	333-60
1/2"	333-54	1 1/2"	333-62

\$5.50 10 pack **\$50.00**
Add "P" to number for packs

Vel-Dot Holders

positioned directly above or below your picture, are perfect for holding an artist identification card. Each Vel-Dot Holder comes with a 7/8 hook dot and 3 loop dots

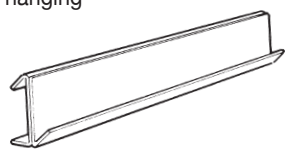

to be positioned on the back of your card or display.

334-31 **\$5.50** | 334-31P **\$50.00**

334-31L Loop Dots **\$1.50** pkg. of 10

Long Hooks

fasten directly to the molding at eye level to hold your art work with a hanging wire. A single Long Hook is suitable for smaller frames. Same use as a Hi-Holder without using a Rod.

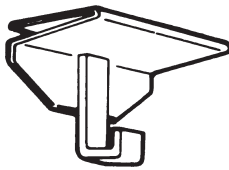

343 **\$5.50**

Ceiling Hooks

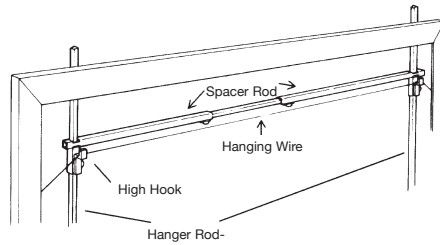

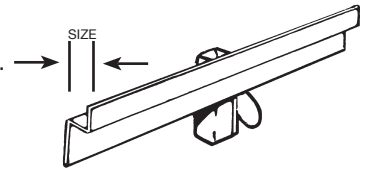

attach to the wall-angle of most suspended ceiling systems and are used where the work to be displayed can be hung from wire, cord or filament line.

White
309-16 **\$6.95**

Frame Hooks fit between the frame and the matting. The 3/8" Frame Hook is for metal frames, while the 7/8" Frame Hook holds most wood canvas stretchers. Hang large frames or canvases quickly and easily with two Rods and two Frame Hooks.

Size			
3/8"	353-53	\$5.50	353-53P \$50.00
7/8"	353-57	\$5.50	353-57P \$50.00

Spacer Rods

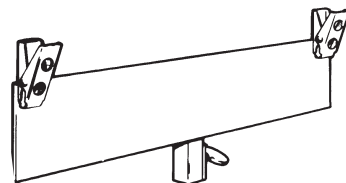

can be used in combination with two Hi-Hooks and two Rods to aid in the stability and appearance of hanging large pieces. When large works are hung, the weight of the work tends to pull the Rods together. The Spacer Rod solves this problem by keeping the Rods apart at the point where the pull is the greatest. The piece can then be leveled easily and accurately. The length of the Spacer Rod is adjustable to accommodate different widths of pieces to be hung.

Length		
18"-30"	324-18	\$12.95
36"-48"	324-36	\$14.95

Twin Clips

consist of a steel-backed 8" wide piece with two badge clips to grip the top edge of works up to 3/16" thick. They are excellent for hanging unmatted prints, photographs, sketches, etc.

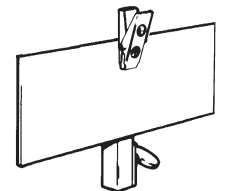

334-82 **\$ 8.95** | 334-82P **\$85.00**

Sing Clips

are a single badge clip on a 3" steel back. Perfect for artist identification cards or any small item.

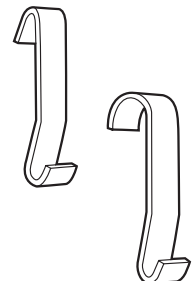

334-32 **\$5.50** | 334-32P **\$50.00**

Molding Hooks

fasten directly to the Molding and hold either a hanging wire, filament cord, or picture frame wire. With the Molding at ceiling height or eye level, the Molding Hook is a quick option for hanging your art **\$4.50**
